#### //Orphanage Progress

You will be pleased to know that we had a visit with a number of the pastors and church plants in Zimbabwe. Starting in January, we will be training a number of people in the Word of God; crisscrossing the country with the message of the kingdom of God.

The orphanage in Nyanga, Zimbabwe is virtually complete. All of the structural work has been finished. The electrical is work being put into place now. As soon as this is done, the children will move into the orphanage village because of your generosity and the generosity of God's people. Hallelujah! With a few more thousand £ push for the furnishings it will be complete. We hope to be announcing a grand opening as soon as the children have been moved to the new site.

#### //Burnham, England

Here in the UK we are pleased to announce that the Burnham Community Church in Burnham-on-sea in the Southwest of England has joined our Lifelink fellowship of churches. I am

looking forward to seeing the development of the church and the relationship. I am praying for them as they look to obtain a building so they can further their work.

## VISIBLE SCHOOL

//Visible School

What great news that Visible School purchased the building in downtown Memphis. I was at the building just a few weeks ago and I must say, it's a gift from God! There's no question, it's a miracle of God's provision, but now they need one more big push to totally refurbish the inside of the building. They have a year to make this viable.

I'm asking you as churches to pray for them that God would touch the hearts of trusts, organizations, and individuals to give generously so that Ken Steorts and the team working with him can produce a fantastic statement of God's provision.

This will be a state of the art facility in the heart of the music center in Memphis where they can have an influence way beyond Memphis, beyond the United States, right into the situations where people's lives will be changed and influenced for the better.

This is an initiative of phenomenal success. They have a waiting list of 20 students with over 100 enrolled and it looks as if they are going to be bursting at the seams with 120 students this year. This is a success. Hallelujah!

## TRINITY SCHOOL OF THEOLOGY

//Trinity School of Theology

We will be finishing another successful year of training students. It's been a phenomenal year when one considers the transition from a residential base to a non-residential base and moving from South Wales to Rugby in Central England. I am so appreciative of the reception we have received by the New Life Church, Rugby. We are so grateful to God for His provision; for the

enthusiasm of the students; and also for the genuine involvement of the Rugby Church! This has all contributed to a great testimony for the college! We are also appreciative of the reception of the churches of Rugby and the regions beyond. You couldn't have asked for a better reception from the churches here.

We are beginning a whole new chapter that has potential and excitement for us in the training of men and women in the work of God and understanding of the Word of God. We have moved the degree program from Bangor (Wales) to York St. John with full agreement of York St. John as to our modules as we rewrite the modules for this change. Gordon Williamson and Ewen Robertson have put a lot of work into this. Pray for us especially that we have the right people and right number of people joining us for so that we are viable.

Beyond the full time program, starting this Fall, we will be offer a night school so that people from different churches throughout the region can participate in this training opportunity. We are hoping that we can copy this pattern in the USA. I know that the church in Chicago is keen about this so we looking for a way forward to train our people in the USA as well. Rather than "reinvent the wheel" we are looking at utilizing the resources we have to serve beyond the current situation.
